Manufacturers’ Certification

1	Initial	I hereby certify that all samples and/or technical information provided for CMA testing/review is supplied by the manufacturer.
2	Initial	I hereby certify that all information provided herein is complete, accurate and that the items submitted for testing are the materials disclosed in this document and sold in the marketplace under the listed item numbers.
3	Initial	I hereby certify that samples submitted meet ASTM D6400 or EN13432(biopolymer blends), ASTM D6868 (coated fiber and multilayer structures), and/or meets criteria for compostability as an untreated wood, paper or wood fiber product and/or is designed specifically to be compostable. I certify that all results from ASTM tests completed are submitted with this profile as proof of meeting that standard or are represented by an equivalent certification (BPI or TUV) or other documentation as requested.
4	Initial	Manufacturer or submitter must agree to non-disclosure unless: (a) requesting only test results on samples for its own internal use; (b) all lab and field requirements are met resulting in acceptance of the products and publication of the information.
5	Initial	I acknowledge that CMA reserves the right to purchase items represented by this submission to independently test for accuracy and integrity. Any “passing” result by CMA does not apply to any item other than the exact item/SKU listed herein that is tested or reviewed. Any results from this test do not apply to any item or items where there is variation in constituency or the manufacturing process.
6	Initial	To remain on any list of commercially accepted items for any facility or group of facilities, CMA reserves the right to require annual testing or recertification at our request and discretion to ensure no changes in content or manufacturing process have occurred.
7	Initial	The testing for an item and an indication of acceptance by one or any CMA facilities does NOT authorize any use of facility or CMA logos, trademarks, trade names, letterhead, or company name on such item, related marketing, educational or promotional material of such item. Any such uses can be authorized, at our discretion, only pursuant to a formal written license agreement through the Compost Manufacturing Alliance, LLC.
8	Initial	I acknowledge that this profile is good for one (1) year from date signed by CMA, and that annual technical review, testing and recertification may be required and requested to ensure products remain the same as initial samples submitted.
9	Initial	It is acknowledged that CMA will not use or disclose any of the manufacturer’s information (except to the manufacturer or agent of the manufacturer that is designated, in writing, by the manufacturer) for the sole purpose of testing. To the extent that the manufacturer receives any information from CMA, other than Pass/Fail test results, the manufacturer shall make no use of such information except as permitted in writing by CMA. CMA shall retain records of its testing in accordance with its retention policies and protocols.
10	Initial	If submitting for recertification, you verify that the samples submitted and represented on this profile are identical to the original item submitted with no variation in constituency or manufacturing process.

Compost Manufacturing Alliance-(PSA-1)- Profile SUBMISSION addendum related to fluorinated chemicals

Manufacturer Name	
Manufacturer Address	
Line Item/SKUS represented by this addendum	

With emerging interest and an increase in proposed legislation potentially banning certain fluorinated chemicals in foodservice packaging, CMA will require product submitters to identify products with the potential to contain per- and poly-fluoroalkyl substances (PFAS, sometimes referred to as PFCs). Related to this, the following questions must be answered regarding products you are submitting for consideration at CMA facilities to:

- 1) Assist us in identifying products with the potential to contain these chemicals
- 2) Identify products subject to exclusion from recertification, review or field testing by CMA effective January 1, 2020.

Required information for CMA SUBMISSIONs related to fluorinated chemicals in products effective Jan. 1, 2019	
1. Do/does your product(s) contain total fluorine > 100 ppm?	<input type="checkbox"/> Yes, > 100 ppm <input type="checkbox"/> No, < 100 ppm
2. What is/are the level(s) of total fluorine in your products?	Range: ____ppm to ____ppm
3. What laboratory method was used to determine fluorine levels?	
4. Please attach laboratory report, or provide results to CMA within 90 days of the signature date below	<input type="checkbox"/> Check if analytical is attached <input type="checkbox"/> Check if analytical will be provided within 90 days of signature date below <input type="checkbox"/> Check if no analytical will be provided
5. PFAS are commonly used in/as lubricants and mold release agents. Have you checked to ensure PFAS are not being used in or on equipment to manufacture your products?	<input type="checkbox"/> Yes, I confirm PFAS are not used in the production process <input type="checkbox"/> No, I cannot confirm PFAS are not being used in the production process.
6. Are you working on alternatives in your products that may contain > 100 ppm total fluorine?	<input type="checkbox"/> Yes <input type="checkbox"/> No
7. If you are working on alternatives, how are you assessing them for hazards? (If needed, add comments on next page).	
8. If yes, what is the intended timeline for alternative items to be available or developed.	

08062019ST
